greater rochester
Health *foundation*

Dear Partners,

Like many in the philanthropic and nonprofit sectors, Greater Rochester Health Foundation is closely monitoring the various policies and actions being implemented at the federal level.

We want you to know that we are actively gathering information to better understand the potential impacts on our communities, while also remaining responsive to new and emerging needs across our region.

We'll be sharing information directly with partners upon request, using discretion and sensitivity given the complexity of the challenges many communities are facing. Additionally, we'll be providing vetted resources that may be helpful, including:

- The National Council of Nonprofits, which is tracking and regularly updating executive orders affecting nonprofits. Access their resource here: [National Council of Nonprofits Executive Orders Chart](#)
- Rochester Area Community Foundation, which has compiled a list of resources for those serving immigrant communities: [Resources & Support for Immigrants](#)
- The Council of Agency Executives, which is gathering feedback from nonprofits on their interactions with federal and state agencies to share with elected officials. To contact them, visit [Council of Agency Executives](#). *Your information will be kept confidential.*

With the vast amount of information being shared, it can be overwhelming. As we navigate this evolving landscape, we encourage you to stay focused on the issues that matter most to you, seek trusted sources for analysis, and take the time to fully understand and contextualize information.

Please remember to take care of yourselves and prioritize your well-being as you continue supporting your clients and strengthening our community.

With appreciation and support,

Greater Rochester Health Foundation

Centered in equity, the mission of the Greater Rochester Health Foundation is to pursue and invest in solutions that build a healthier region where all people can thrive.
